The normative and pervasive nature of gambling behaviors in the United States can desensitize us to the problems that can occur when a person's view of gambling shifts from entertainment to fixation. Recently reassigned in the DSM 5 from an impulse control disorder to a behavioral addiction, disordered and problem gambling affects 2-5% of adults and twice as many young people. Confounding the issues of problem identification, referral, and treatment is a lack of awareness on the part of service providers, clients, family members and the general public that, for some people, gambling can become an addiction even more devastating than alcohol or other drugs. As state governments turn more to legalized gambling as a source of revenue, studies indicate that vulnerable populations: the poor, disenfranchised, and people in recovery from mental health and substance use disorders, are disproportionately impacted in harmful ways. This training will address the social and environmental factors which influence gambling; gender and race considerations; and how our biology creates conditions conducive to the pursuit of risk and reward. Training will include lecture, large and small group discussion, activities and media.

The normative and pervasive nature of gambling behaviors in the United States can desensitize us to the problems that can occur when a person's view of gambling shifts from entertainment to fixation. Recently reassigned in the DSM 5 from an impulse control disorder to a behavioral addiction, disordered and problem gambling affects 2-5% of adults and twice as many young people. Confounding the issues of problem identification, referral, and treatment is a lack of awareness on the part of service providers, clients, family members and the general public that, for some people, gambling can become an addiction even more devastating than alcohol or other drugs. As state governments turn more to legalized gambling as a source of revenue, studies indicate that vulnerable populations: the poor, disenfranchised, and people in recovery from mental health and substance use disorders, are disproportionately impacted in harmful ways. This training will address the social and environmental factors which influence gambling; gender and race considerations; and how our biology creates conditions conducive to the pursuit of risk and reward. Training will include lecture, large and small group discussion, activities and media.

PROFESSIONAL DEVELOPMENT

CT Partnership for Child Welfare Excellence

The DCF Academy for Workforce Development, in partnership with the UCONN School of Social Work (SSW), has been awarded a five year grant that is ultimately designed to support our workforce. The Partnership will result in 35 Master of Social Work (MSW) graduates over a five year period, who are either currently employed at the Department or who will receive priority consideration for employment. DCF will seek students who are currently enrolled or are considering enrollment in the UCONN SSW - MSW program. Students accepted in the program will have their final year (\$13,714) of graduate study paid in full through this grant. Students must do their field internship at DCF.

The 2018-2019 cohort for the CT Partnership for Child Welfare Excellence Program will be the last cohort under the grant. The DCF and UCONN SSW will continue to explore other available educational opportunities to advance student learning and this partnership.

Graduate Education Stipend (GES)

The GES Program is an educational program to assist DCF employees with **two or more years of employment** in obtaining either an undergraduate or graduate degree in the field of Social Work/Child Welfare. This program offers **full-time employees** the opportunity to work a 32 hour work week and 8 hours of work time to devote to their internship. The reduction of hours will not affect seniority or longevity and **overtime is not permitted** while participating in this program. Recipients must be completing an internship either external to the Department or at a DCF location other than your current worksite. Students need to be in good standing and maintain a 3.0 GPA or better. Program recipients are obligated to complete two months of employment of service for every month of participation in the GES program, equivalent to 18 months.

Application and deadline has passed.

MSW Field Placement

The MSW Field Placement Program is offered to first and second year, as well as Advanced Standing students. Priority goes to students seeking their final year field placement. The intent of the program is to foster support of our social workers by allowing them to meet their university requirements for 20 hours of field instruction within their regular forty hour work week. A major component of the program is that it allows for the social workers to use their place of employment as their field instruction, while maintaining their current caseload, within their current unit. A field instructor outside of the student's chain of command is utilized to ensure a separation of work and learning responsibilities.

Application and deadline has passed.

Note: Employees may apply for both the Graduate Education Stipend (GES) and MSW Field Education Program. However, employees may only be accepted into one program per academic year. It is advised that the student apply for the GES program in the first year of their educational program and the MSW Field Educational Program in the second year when they are required to complete more hours for the placement.

Field Supervision

Providing field supervision / instruction to a student intern is an excellent opportunity for DCF staff to develop professionally, while assisting in the education and growth of a future human services professional. **Field Supervisors** are expected to provide students with activities that meet the students' learning objectives as outlined in a learning contract and / or class syllabus. At times, schools may require the Field Supervisor be certified via the Seminar in Field Instruction (SIFI) course. For additional information regarding field supervision / instruction, please visit the [DCF Academy website](#).

Internship

The Department of Children and Families provides unpaid internship opportunities for students pursuing a degree in social work or a related field, and for which the internship is an academic requirement. For additional information, please visit the [DCF Academy website](#).
