Therapeutic Support Staff Services

Service Description:

Therapeutic Support Staff is a service designed to address the individualized needs of a child or youth. The identified child or youth must have a current diagnosed behavioral health condition that substantially interferes with, or limits, the child's or youth's role or functioning in family, school or community activities. These individualized supports are provided by paid, trained and supervised individuals. This service is provided typically for up to eight (8) hours per week per child or youth and includes a combination of structured and enrichment activities consistent with identified case plan objectives. The service is multifaceted and should not focus on a single sport or activity.

The hourly rate for this service includes the cost of transporting the child receiving the service. (See footnote #1)
